INTERNATIONAL TAX

Built for serious learners. Delivered to the very highest standard.

■ About the Academy

International taxation has moved from being a specialised corner of practice to the very heart of cross-border business. For any Chartered Accountant or tax lawyer who wishes to build a meaningful career in this domain — or for any senior professional wishing to deepen their command of it — structured, rigorous, practitioner-led learning has long been difficult to find.

Dr. Amar Mehta's International Tax Academy has been established to close that gap. It is built around a single commitment: training, mentoring, and learning resources of the very highest standard, delivered personally by faculty with deep, sustained experience of the subject.

■ About the Faculty

Dr. Amar Mehta brings over 33 years of experience in international taxation. He is a former International Tax Partner with a Big Four accounting firm in India and a former Senior Advisor on international taxation to another Big Four firm in India. He holds a PhD in International Tax Law and has advised clients across multiple jurisdictions and industries on the most demanding questions in cross-border taxation — from inbound and outbound structuring to treaty interpretation, characterisation disputes, and complex controversy matters.

■ Who This Programme Is For

This Programme has been designed for serious learners — Chartered Accountants, tax lawyers, and CA Final students — who intend to make international taxation a meaningful part of their professional identity. It is suited equally to those building toward a specialist career in international tax, those in practice seeking to win and serve more substantive cross-border assignments, and those already working in the field who wish to consolidate and sharpen their command of the fundamentals.

Built for Serious learners. Delivered to the very highest Standard.
